

GENERAL INSURANCE
COMPETENCY FRAMEWORK
LEVEL 1 SALESPERSON HANDBOOK

COPYRIGHT © 2025

The Insurance Council of British Columbia developed the General Insurance Competency Framework within the shared, ancestral territories of the x^wməθk^wəyəm (Musqueam), Sḵw̓x̓wú7mesh (Squamish) and sə́lilwə́təl (Tsleil-Waututh) Nations.

FOREWORD

As a significant step towards the Insurance Council of British Columbia's harmonization goals, the development of the General Insurance Competency Framework began in 2019 with intensive research and external consultation by a committee of industry professionals.

In April 2021, the Insurance Council approved the terms of reference for the Level 1 Salesperson General Insurance Competency Framework. This milestone laid the foundation for elevating professional standards in general insurance across the province.

Between 2022 and 2025—working closely with industry associations, insurance educators and licensees—we developed the Level 2 and 3 agent and nominee general insurance competency frameworks. These frameworks were built on the foundational competencies established for Level 1, reflecting a comprehensive and progressive approach to insurance education and professional growth.

The framework development process was rigorous and inclusive. It involved extensive research into nationwide industry skillsets and several online and in-person consultations with subject matter experts from across the industry and educational institutions. Key contributors included representatives from the British Columbia Institute of Technology (BCIT), Canadian Association of Direct Relationship Insurers (CADRI), Canadian Association of Managing General Agents (CAMGA), Credit Union Insurance Services Association (CUISA), Insurance Brokers Association of British Columbia (IBABC), Insurance Institute of British Columbia (IIBC), Insurance Institute of Canada (IIC) and the ILS Learning Corporation (ILS).

Additionally, all general insurance licensees in British Columbia were invited to participate through surveys and written feedback. The framework is grounded in real-world experience and reflects the profession's evolving needs.

This collaborative approach helped validate the framework as the provincial general insurance practice and education standard.

To further ensure educational excellence, we engaged an outcome-based learning consultant to guide the development process and uphold quality standards.

In the spring of 2025, the Insurance Council initiated discussions with regulatory bodies in other Canadian jurisdictions about using the framework as a basis for licensing harmonization at a national level. These discussions are ongoing at the time of this publication.

A unified national framework will enhance consistency in professional standards and support greater mobility for licensees across Canada, benefiting both the industry and the public it serves.

We are proud of the collaborative effort that brought this framework to life and are grateful to all who contributed their time, expertise and insights. As we look ahead, we remain committed to advancing excellence in general insurance practice and education.

Ugie Ifesi
Director, Licensing

Acknowledgments

The General Insurance Competency Framework was made possible through the collaborative efforts and expertise of Insurance Council voting members, committees and staff, industry organizations and their representatives, and general insurance educators and licensees. The Insurance Council gratefully acknowledges these contributions.

SUBJECT MATTER EXPERTS

The following professionals from participating organizations contributed time and expertise to the framework development, significantly impacting its industry relevance and helping to establish the professional standard for general insurance business in British Columbia.

2022 Level 1 Salesperson Workshop Attendees

Roland Beaulieu | AllWest Insurance

Michael Bennett, CAIB | Guardian

Megan Carter, CAIB | Acera Insurance

INSURANCE COUNCIL OF BRITISH COLUMBIA

The Insurance Council and its committees comprise industry practitioners and experts throughout the province of BC.

Since 2019, the voting members of the Council and Council Committees have contributed significant regulatory guidance and validation. Their efforts are acknowledged with gratitude.

Members of the General Insurance Framework Committee include Gina Benett, Manjit Biring, Michele Carver, Joanne Deson, Nicole Federucci, Anita Gill and Glenda Ouellette.

Members of the Licensing Committee include Jamie Chisholm, Cameron Copeland, Grace Kim, Maureen Kurenoff, Shelly Maurer, Shelby Vevers and Jeny Yeung.

LICENSEES

During the framework's development, all levels of general insurance licensees in British Columbia were invited to review the framework through online consultation.

Their valuable feedback helped to strengthen the framework's value as an educational and professional resource for each licence level.

Introduction

ABOUT THE INSURANCE COUNCIL OF BRITISH COLUMBIA

The [Insurance Council of British Columbia](#) (Insurance Council) is the regulatory body appointed by the British Columbia (BC) provincial government under the Ministry of Finance to ensure licensed insurance professionals are working with currently established practice standards promoting ethical conduct, integrity and competence.

Under the authority of the *Financial Institutions Act* (FIA), the Insurance Council regulates insurance agents, salespersons and adjusters in BC, fulfilling its mission to:

“Proactive regulatory leadership that ensures a qualified, competent and ethical industry meets British Columbians’ insurance needs.”

ABOUT THE GENERAL INSURANCE COMPETENCY FRAMEWORK HANDBOOK

The Insurance Council of British Columbia’s General Insurance Competency Framework (the framework) defines the minimum level of general insurance industry knowledge and professional performance required for Level 1 salespersons, Level 2 agents, Level 3 agents and nominees in British Columbia.

The framework serves as a reference and educational resource for licensees and nominees, insurance course providers, industry regulators and members of the public.

This handbook is an educational and professional resource for all Level 1 salesperson licensees in British Columbia. It outlines the framework development, scope and usage for Level 1 professionals. Handbooks for Levels 2, 3 and Nominee are provided on the [Insurance Council website](#).

The appendix provides further information, including the full general insurance competencies for all licensee levels, a [Learning Journey Blueprint](#) for workplace practice, a glossary of framework terms and links to additional resources.

FRAMEWORK MILESTONES

This timeline highlights key milestones of the framework development. A complete outline of the General Insurance Competency Framework development process is provided in Appendix D.

APRIL 2021

The Insurance Council approves the terms of reference for the General Insurance Competency Framework Committee.

DECEMBER 2021

The committee completes development of the first draft of the framework for General Insurance Level 1 Salesperson.

JANUARY 2022

The Insurance Council approves the first draft of the Level 1 salesperson framework for wider stakeholder consultation.

FEBRUARY 2022

The first external subject matter expert consultation period occurs.

MAY 2022

Level 1 general insurance licensees complete a rated-response survey and provide written feedback.

SEPTEMBER 2022

The Insurance Council approves the Level 1 salesperson general insurance competencies.
+
The Insurance Council begins development of the Level 2 agent, Level 3 agent and nominee general insurance competencies.

APRIL 2024

The Insurance Council completes the development of the Level 2 agent, Level 3 agent and nominee general insurance competencies.
+
Industry subject matter experts attend a two-day consultation meeting with Insurance Council staff to provide competency feedback.

MAY 2024

The Insurance Council completes six months of AI-powered market research analyzing nationwide industry skillsets.
+
Level 2 and Level 3 agent licensees and nominees complete competency feedback via an online rated-response survey.

SEPTEMBER 2024

The Insurance Council approves the General Insurance Competency Framework for all levels.
+
Industry subject matter experts complete a two-day consultation session to review all indicators and provide feedback.

FEBRUARY 2025

Licensees in British Columbia participate in an online consultation process to review all indicators.

MAY 2025

Indicators are revised, incorporating feedback from industry subject matter experts, licensees and an outcome-based learning professional.

+

Industry subject matter experts complete a final two-day consultation session to review the revised indicators.

JUNE 2025

The complete General Insurance Competency Framework for all levels is presented to the licensing committee.

JULY 2025

The Insurance Council approves the complete General Insurance Competency Framework.

AUGUST 2025

The General Insurance Competency Framework is published.

GENERAL INSURANCE PROFESSIONAL LEVELS

Insurance professionals in British Columbia have the skills and knowledge needed to meet high industry standards. They use what they know to work efficiently and provide strong client service. They take responsibility for doing the right thing and always look for ways to learn and improve. They follow all industry rules and act honestly and fairly, guided by the Insurance Council's Code of Conduct. Most importantly, they put the needs of their clients and the public first, and build trust in all business relationships.

Exciting and rewarding careers in general insurance are available in British Columbia, from Level 1 salesperson to nominee. A Level 1 salesperson licensee

applies the foundational knowledge and skills to work in automobile, property and liability lines. A Level 2 or 3 agent licence allows licensees to handle more complex insurance situations and work toward leadership positions. The highest general insurance role level is nominee. Nominees are licensees who hold positions of accountability within their agency. The General Insurance Competency Framework and Learning Journey Blueprint provide licensees with a valuable resource to learn applicable licensee competencies and a clear pathway to understanding required knowledge and skills for career progression.

LEVEL 1 SALESPERSON

Foundational knowledge and skills

Level 1 salespersons are licensees who process documents, receive payments and initiate coverage. They assist and advise clients regarding:

- General Insurance (automobile, property, liability) in **straightforward** situations.
- Policy application and renewal.

LEVEL 2 AGENT

Increased knowledge and skills

Level 2 agents are licensees competent in **all** Level 1 knowledge and skills. Additionally, with increased knowledge complexity, they sign and/or deliver policies and assist and advise clients regarding:

- General Insurance in **complex** situations.
- Policy remarketing.

LEVEL 3 AGENT

Mastery and supervision

Level 3 agents are licensees competent in **all** Level 1 and Level 2 knowledge and skills, and advise colleagues regarding General Insurance in straightforward and complex situations. Additionally, they:

- Transfer product, process and system knowledge to licensees.
- Provide leadership for the agency.

NOMINEE

Leadership and responsibility

Nominees have a level 3 agent licence with the role of being agency leaders. They proficiently demonstrate the framework competencies for all General Insurance licence levels. The added responsibilities of nominees include:

- Monitoring the insurance agency and its employees, ensuring proper supervision and controls are followed.
- Ensuring agency and licensees conduct business according to their licence conditions and restrictions.

Using the Framework

HOW THE COMPETENCY FRAMEWORK IS USED

The competency framework is a resource for multiple insurance industry parties, including licensees, education providers, regulators and employers.

LICENSEES

- To gain the knowledge and skills to practice insurance in BC proficiently.
- To learn next steps for career development, progressing to higher licence levels and conducting business in different lines of insurance.

EDUCATION PROVIDERS

- To develop and employ education programs that qualify for accreditation in BC.
- To use as a standard for professional development programs and procedures.

EMPLOYERS

- To refine roles and align them with regulatory standards.
- To develop staff training materials.
- To measure employee performance and develop professional development programs and procedures.
- To improve career progression pathways for employees.

INDUSTRY CLIENTS

- To feel confident that the insurance industry, and its professionals, have the knowledge, skills and integrity to provide high-quality service and meet professional standards.

INDUSTRY REGULATORS

- To define professional and educational standards.

COMPETENCY FRAMEWORK ARCHITECTURE

The framework is divided into three sections:

SECTION 1

Knowledge of the Insurance Industry

SECTION 2

Technical Abilities

SECTION 3

Business Skills

Competencies define the required knowledge in each section. A learning objective is provided for each competency to highlight its educational intent for course providers. Examples of industry skills and experiences, referred to as indicators, ensure proof of competency at each licence level.

This handbook contains the framework for all general insurance professional roles in British Columbia. Individual handbooks for each level are provided on the [Insurance Council website](#).

The framework assigns a set of standard competencies and indicators to all levels, including nominee. However, each licence level has different competencies and indicators tailored to its specific professional knowledge and requirements. Each higher role level includes the competencies and indicators of the levels below and adds new ones relevant to its expanded scope of practice.

The Insurance Council recognizes that not every licensee will apply the whole framework to all areas of their role, depending on their scope of practice and the line(s) of insurance they work with. The framework competencies and indicators are intended to be broad to provide flexibility for use across various types of general insurance business.

COMPETENCIES

The knowledge a licensee requires to work proficiently at their licence level. It is a key component in the foundational framework and sets the entry-to-practice standard for each professional level.

LEARNING OBJECTIVE

For educational purposes, the intent highlights the main learning objective of the competency.

INDICATOR

Supports the competency through observable behaviour in training or performance assessments. The observed behaviour indicates whether the individual can demonstrate the required competency.

TOTAL COMPETENCIES

- LEVEL 1 SALESPERSON
- LEVEL 2 AGENT
- LEVEL 3 AGENT
- NOMINEE

LEARNING THEME

KEYWORDS

EDUCATIONAL SKILLS CATEGORIES

SKILL TYPE		
T	TECHNICAL SKILL	Requires technical knowledge of systems, processes and policies.
ET*	ETHICAL SKILL	Relies on industry standards of morals and values. <i>*Each ethical skill is also considered a technical skill.</i>
S	SOFT SKILL	Personal attributes that enable effective interaction.

WORKPLACE PRACTICE SKILLS AND KNOWLEDGE

While the framework details professional competencies gained in educational settings, the Insurance Council recognizes that some of the knowledge and skills needed to be a successful general insurance licensee are learned and practiced professionally. Appendix B of this handbook provides a Learning Journey Blueprint detailing the recommended workplace skills for licensees and outlining the scope of accountability between agencies and nominees.

A group of business professionals, including men and women in business attire, are walking up a modern staircase. The staircase has wooden steps and glass railings. The background is a modern building with large glass windows and a blue-tinted overlay. The text is centered over the image.

General Insurance Competency Framework

General Insurance Competency Framework
Level 1 Salesperson

KNOWLEDGE OF THE INSURANCE INDUSTRY

1.1 Principles and practices of insurance

1.1.1 Apply knowledge of the role value and impact of the insurance industry, including its risk mitigation efforts in society.

To learn how the insurance industry plays a significant role in society by mitigating the impact of unexpected events, supporting economic stability and promoting safety awareness.

Outline the function and role of insurance and its impacts in society.

Identify common mitigation efforts advocated by the industry.

1.1.2 Apply knowledge of, approaches to and structures of insurance products commonly offered in British Columbia.

To learn how the insurance industry is structured, including the different organizations involved in providing insurance products and services to the public in British Columbia.

Describe the categories and classes of general insurance products and services offered in British Columbia.

Outline common distribution and sales methods for general insurance products.

Explain how premiums are collected and managed.

1.1.4 Apply knowledge of insurance terminology and fundamental principles.

To learn foundational concepts of insurance, how it works and common terminology used in the insurance industry.

Describe the concept of insurance and its fundamental principles.

Define commonly used insurance terminology.

Describe insurance fundamentals as they apply to personal and commercial lines.

1.1.7 Maintain awareness of insurance industry changes within the general insurance sector in British Columbia.

To learn where to access information regarding market or regulatory changes and how these may affect licensees and clients.

Identify resources that outline industry changes in British Columbia.

Use the checkboxes to track learning progress.
Learners may mark topics as completed, and education team members can refer to these selections to support instruction.

LEGEND | Beige: Learning Objective · Blue: Indicator

1.1.9 Interpret the contractual obligations of insurers and managing general agents.

To learn about the relationship between insurers, managing general agents and insureds according to the policy contract including, their requirements.

Describe the relationship between the insured and the insurer as defined by the standard contract of insurance.

Describe the indirect relationship between the insured and the managing general agent as defined by the standard contract of insurance.

Describe insurer requirements based on standard insurance policy wording.

Describe delegated authority of managing general agents.

1.1.11 Apply knowledge of how catastrophic events and climate-related risks impact industry changes, such as market trends and cycles.

To learn how losses from catastrophic events may impact the insurance industry, its products and response.

Identify how natural catastrophes and climate-related risks could impact the industry.

Identify how catastrophic events and climate-related risks impact a policy.

Identify risk mitigation resources.

1.2 Organization and regulatory framework of the insurance industry in British Columbia

1.2.1 Apply knowledge of the roles of organizations, departments and individuals commonly involved in general insurance sales.

To learn the industry structure and organizational relationships that support the sale and distribution of insurance.

Outline the role of insurance companies, managing general agents and agencies in insurance sales.

Outline the common functions within insurance companies and agencies.

Outline the importance of insurance market relationships in insurance sales.

1.2.4 Apply knowledge of the role of the Insurance Council of British Columbia.

To learn about the Insurance Council of British Columbia and its role as a regulator of intermediaries.

Describe the mandate of the Insurance Council of British Columbia.

1.2.7 Comply with broader legal and regulatory frameworks applicable in the sale and support of insurance products and services in British Columbia.

To learn about the restrictions and conditions relevant to the Level 1 general insurance salesperson licence.

Identify the Level 1 general insurance salesperson licence restrictions, conditions and applicable exemptions under the provisions of the <i>Financial Institutions Act</i> .	Identify the provisions of the <i>Insurance Act</i> .	Identify general insurance provisions under other applicable legislation.
Identify common disclosures required of salespersons and agents.	Define unauthorized insurer.	Identify associations and other regulatory bodies that support licensee practice.

1.3 Insurance products and services

1.3.1 Apply knowledge of the common types of general insurance available in British Columbia.

To learn about commonly available insurance products.

Describe the purpose and coverages of personal automobile insurance.	Describe the purpose and coverages of personal property insurance.	Describe the purpose of commercial property and general liability policies.
Describe the purpose and coverages of travel insurance.	Describe the purpose and coverages of government-mandated insurance products and applicable legislation and regulations.	

1.3.4 Maintain current knowledge of products and services provided by employing organization.

To learn about standard underwriting guidelines and eligibility requirements.

Describe the insurance sales cycle from quote to payment options, policy issuance, claims, policy or contract amendment, renewal and cancellation procedures.

TECHNICAL ABILITIES

2.1 Product sales, processing and servicing

2.1.1 Identify client risk and possible solutions to protect client interest.

To learn how to assess clients' risk and educate them about appropriate coverages.

Describe the responsibilities of a licensee and an underwriter in evaluating client risk.

Describe common general insurance underwriting guidelines.

2.1.3 Explain to client the benefits and limitations of products under consideration.

To learn how to identify the extent of coverages.

Compare and contrast common insurance products, with respect to coverage options, premiums, benefits and limitations.

2.1.6 Interpret the intention of policy wordings and explain them to clients in plain language.

To learn how to explain insurance contracts in plain language.

Describe the purposes of sections found in insurance policies and wordings.

Describe common coverages, endorsements, limitations and exclusions in general insurance policies.

Define key terminology used in an insurance policy.

Describe the general insurance provisions, including relevant statutory conditions.

2.1.7 Apply skills to assist clients in making an informed decision.

To learn skills that support client awareness and decision making.

Identify strategies to inform clients about the key benefits and value of available products and services.

Identify appropriate steps to meet disclosure requirements and obtain informed consent.

2.1.9 Apply knowledge of risk factors that impact underwriting and pricing.

To learn underwriting factors that influence an underwriting decision.

Describe risk factors affecting insurance market underwriting decisions.

Describe common risk mitigation approaches to create an acceptable risk for underwriting.

Describe how common physical and moral hazards affect risks.

2.1.11 Explain to clients the purpose of collecting specific personal and risk information.

To learn about the collection, use and storage of personal and risk information.

Outline the reasons that personal information is required in order to initiate an insurance transaction.

2.1.14 Arrange for completion of documentation to initiate and confirm coverage, consistent with organizational role.

To learn what documentation is necessary to complete an insurance transaction.

Describe generally accepted document-handling procedures and requirements in the insurance industry.

Identify the requirements to complete an insurance transaction and confirm coverage.

2.1.16 Apply knowledge of the claims process and assist clients in claim reporting.

To learn about the claims function and how to support clients throughout the claims process.

Describe general claim-reporting and claim-handling processes.

Describe common claim-handling restrictions and authority.

2.2 Legal and regulatory requirements affecting sales and processing

2.2.1 Protect the privacy and confidentiality rights of others.

To learn about the protection of personal data and confidentiality obligations.	
Outline relevant privacy laws, including the <i>Personal Information Protection and Electronic Documents Act</i> (federal).	Outline consent and disclosure requirements applicable in an insurance transaction.

2.2.2 Adhere to best practices of privacy policies and procedures to protect and secure clients’ personal data.

To learn best practices that support privacy and confidentiality.	
Identify the scope of the <i>Personal Information Protection Act</i> (provincial) regarding the protection of personal information.	

2.2.4 Comply with the requirements set by the Insurance Council of British Columbia applicable to a Level 1 general insurance salesperson licensee.

To learn about the scope of practice of a Level 1 general insurance salesperson licensee.	
Identify the Level 1 salesperson licensing requirements to practice insurance in British Columbia.	Identify the requirements established by the Insurance Council to protect consumers of insurance products and services.
Identify responsibilities regarding rebating.	Identify the obligations and responsibilities of licensees.

BUSINESS SKILLS

3.1 Professional conduct and ethics

3.1.1 Comply with the Council Rules and Code of Conduct of the Insurance Council of British Columbia.

To learn about the Council Rules and Code of Conduct of the Insurance Council.

Identify the obligations of licensees set out by the Insurance Council.

Identify the scope of duties set out in the Council Rules and Code of Conduct that licensees must abide by.

3.1.2 Contribute to the operational integrity of the employing organization.

To learn how personal integrity can support an organization.

Describe organizational practices that promote integrity.

Describe individual behaviours that demonstrate professional integrity.

Identify techniques to promote dependability and reliability in a workplace.

3.1.3 Accept accountability for decisions and actions, that are aligned with fiduciary obligations, organizational policies, procedures and directives.

To learn about skills to develop personal accountability.

Describe professional accountability skills.

Describe techniques to foster accountability in a workplace.

Identify the individual and fiduciary obligations of an intermediary.

3.1.4 Treat clients, coworkers and industry stakeholders respectfully, ethically and fairly with cultural sensitivity.

To learn strategies on how to treat others respectfully, ethically and fairly with cultural sensitivity.

Identify ways to promote a respectful workplace.

Identify ethical behaviours that support professional relationships with others.

Identify strategies to develop and enhance empathy.

Identify strategies that support diversity, equity and inclusion.

3.1.5 Work within the extent of personal knowledge, skills and experience, and refer clients to other qualified personnel as appropriate.

To learn how to identify personal limitations and when to seek assistance.

Identify workplace responsibilities and situations exceeding your personal professional ability.

3.1.6 Undertake learning focused on personal professional development.

To learn the importance of continuing education.

Explain the importance of ongoing professional development.

Describe standard organizational best practices.

3.1.11 Provide a client-centric experience, with utmost good faith.

To learn the foundations of utmost good faith.

Define utmost good faith and outline its application in the workplace.

Explain an ideal client-centric experience.

3.1.14 Report unethical behaviour of other industry personnel.

To learn about unethical behaviour in the insurance industry.

Identify examples of situations that would qualify as unethical behaviour.

Outline the process for reporting the unethical behaviour of other insurance professionals.

3.2 Errors and omissions

3.2.1 Apply knowledge of the regulatory requirement for errors and omissions insurance.

To learn about errors and omissions insurance, why it is required and when it is triggered.

Identify the purpose for organizations to obtain an errors and omissions insurance policy.

3.2.3 Apply knowledge of situations where potential errors and omissions may occur.

To learn about potential situations that may create errors and omissions.

Identify common errors and omissions circumstances.

Outline strategies to mitigate and avoid errors and omissions claims.

3.2.6 Recognize and take appropriate steps to address potential errors and omissions and notify appropriate parties when these situations arise.

To learn steps for handling errors and omissions.

Identify actions to prevent the recurrence of errors and omissions.

Identify strategies to investigate errors and omissions.

3.2.8 Identify the impact of errors and omissions.

To learn how errors and omissions can affect various parties.

Identify how errors and omissions may affect relationships.

Describe the potential financial impact of errors and omissions.

3.3 Communication

3.3.1 Employ effective oral communication, using both plain and technical language.

To learn oral communication skills.

Describe strategies for effective oral communication.

Describe common insurance terminology and acronyms using plain language.

3.3.2 Employ effective written communication, using both plain and technical language.

To learn written communication skills.

Describe strategies for effective written communication.

Describe common insurance terminology and acronyms using plain language.

3.3.3 Employ active listening.

To learn the components and value of active listening.

Describe active listening skills.

3.3.4 Maintain awareness of barriers in both oral and written communication, and take relevant steps to reduce them.

To learn how to identify and reduce barriers in communication.

Describe common barriers in written and oral communication and identify steps to address them.

3.3.5 Employ interview skills to determine client needs and expectations.

To learn interview skills for an insurance transaction.

Describe the process of collecting and documenting clients' information and assessing their needs.

3.3.8 Employ basic conflict resolution skills to handle difficult situations, and engage assistance when required.

To learn about conflict resolution and de-escalation skills.

Describe basic conflict resolution strategies.

3.4 Client experience

3.4.1 Establish open and trusting relationships with clients and industry partners.

To learn about relationship-building skills.

Describe the importance of honesty and trust with clients and industry partners.

Describe the common process for receiving referrals, and the disclosure requirements to clients regarding referral fees or commissions.

Identify common situations where conflict of interest may arise.

Identify common situations where undue influence may arise.

3.4.3 Represent the insurance industry professionally, with integrity and transparency.

To learn the standards of professionalism.

Outline how the Insurance Council's guidelines, Code of Conduct and Council Rules help ensure integrity and transparency.

3.5 Information management

3.5.1 Operate communications and information management systems effectively.

To learn the purpose and value of systems used in the industry.

Identify communications and information management systems commonly used within an insurance organization.

Identify the opportunities, risks and responsibilities of using emerging technologies.

3.5.4 Identify concerns and risks of sharing data and information across organizational boundaries and take action where risks are identified.

To learn how security awareness training supports data privacy and security.

Outline risks in data and information sharing and/or access between organizations.

Outline safe practices in data and information sharing and/or access between organizations.

3.5.5 Comply with organizational policies and procedures for security, retention and confidentiality of records, information and data to prevent breaches and cyber loss.

To learn how secure data management can prevent breaches and potential cyber loss.

Identify common organizational procedures for security, retention and confidentiality of data.

3.6 Record keeping

3.6.1 Maintain complete, timely and accurate records of both written and verbal correspondence.

To learn the importance of accurate record keeping.

Outline appropriate document and file management techniques.

Outline the salesperson, agency and managing general agent obligations in collecting, securing, maintaining and documenting all interactions.

3.6.2 Ensure secure storage and retention of records.

To learn how to store, secure and maintain records.

Outline the processes to store and secure records based on regulatory requirements.

3.6.4 Ensure that records relate to potential errors and omissions concerns.

To learn how effective record-keeping supports the mitigation of potential errors and omissions.

Identify common record-keeping practices to document client interactions in consideration of potential errors and omissions situations.

3.7 Leadership and supervision

3.7.1 Apply knowledge of documents produced in the cycle of an insurance transaction and the use of supplementary documents required to initiate or confirm coverage.

To learn about documents relevant to the insurance cycle.

Describe common insurance documents used in insurance transactions.

3.7.4 Identify personal knowledge gaps and training needs regarding product offerings, policy wordings and day-to-day transactions.

To learn how to identify areas for personal professional growth.

Identify professional development resources for an insurance industry professional.

Identify potential improvements in personal knowledge and skills to enhance effectiveness.

APPENDIX

APPENDIX A

**The Complete
General Insurance
Competency Framework**

Appendix A provides the complete competencies, defined by the framework, for all general insurance professional roles. To view the indicators for each professional level, please refer to the General Insurance Competency Framework Handbook resource.

KNOWLEDGE OF THE INSURANCE INDUSTRY

1.1 Principles and practices of insurance

LEVEL 1 SALESPERSON	LEVEL 2 AGENT	LEVEL 3 AGENT	NOMINEE

APPENDIX B 

Learning Journey Blueprint

The General Insurance Competency Framework provides the competencies required of general insurance licensees. These competencies are taught and observed in an educational setting.

The Learning Journey Blueprint outlines workplace skills and knowledge for licensees to complement the framework's educational competencies. This Learning Journey Blueprint is provided in two parts:

WORKPLACE SKILLS

Part 1: Workplace Skills is provided as a guide for licensees. It highlights workplace skills, abilities and behaviours that support continuous professional development and career success at every general insurance licence level.

Agencies and hiring managers are encouraged to use the Learning Journey Blueprint as a reference for establishing workplace practices and developing training resources.

AGENCY ACCOUNTABILITY GUIDE

The General Insurance Competency Framework for nominees includes competencies and indicators that the agency may fulfill.

Part 2: Agency Accountability Guide of the Learning Journey Blueprint is a reference guide for outlining agencies' responsibilities, which a nominee may support as appropriate for the agency.

PART 1
Workplace Skills

PART 2
Agency Accountability Guide

LEVEL 1 SALESPERSON

SECTION 1: KNOWLEDGE OF THE INSURANCE INDUSTRY

Maintain current knowledge of products and services provided by the employing organization.

- Identify common insurance products and services offered to clients by the organization.
- Identify suitable insurance products and services that are in the clients' best interests.

SECTION 2: TECHNICAL ABILITIES

APPENDIX C 
**Framework
Development Process**

FRAMEWORK DEVELOPMENT PROCESS

The General Insurance Competency Framework was developed over six years. Several research and development phases took place with participation from key industry members, including organizations, individuals, Insurance Council members and staff and education consultants. The dates below outline significant steps in the development process.

April 2021:

- The Insurance Council approves the terms of reference for the General Insurance Competency Framework Committee.

December 2021:

- The committee completes development of the first draft of the framework for General Insurance Level 1 Salesperson.

January 2022:

- The Insurance Council approves the first draft of the Level 1 salesperson framework for wider stakeholder consultation.

February 2022:

- The first external subject matter expert consultation period occurs.

May 2022:

- Level 1 general insurance licensees complete a rated-response survey and provide written feedback.

September 2022:

- The Insurance Council approves the Level 1 salesperson general insurance competencies.
- The Insurance Council begins development of the Level 2 agent, Level 3 agent and nominee general insurance competencies.

April 2024:

- The Insurance Council completes the development of the Level 2 agent, Level 3 agent and nominee general insurance competencies.
- Industry subject matter experts attend a two-day consultation meeting with Insurance Council staff to provide competency feedback.

May 2024:

- The Insurance Council completes six months of AI-powered market research analyzing nationwide industry skillsets.
- Level 2 and Level 3 agent licensees and nominees complete competency feedback via an online rated-response survey.

September 2024:

- The Insurance Council approves the General Insurance Competency Framework for all levels.
- Industry subject matter experts complete a two-day consultation session to review all indicators and provide feedback.

February 2025:

- Licensees in British Columbia participate in an online consultation process to review all indicators.

May 2025:

- Indicators are revised, incorporating feedback from industry subject matter experts, licensees and an outcome-based learning professional.
- Industry subject matter experts are invited to attend a final two-day consultation session to review the revised indicators.

June 2025:

- The complete General Insurance Competency Framework for all levels is presented to the licensing committee.

July 2025:

- The Insurance Council approves the complete General Insurance Competency Framework.

August 2025:

- The General Insurance Competency Framework is published.

APPENDIX D

Glossary

AGENCY CONTRACT: a contract between an insurance agent and an insurer, specifying the agent's responsibilities and payment.

BONDS: protection for an individual or organization against financial loss when specific circumstances occur.

BROKER: an individual who sells, solicits or negotiates insurance with multiple insurers on behalf of a client for compensation.

CODE OF CONDUCT: In keeping with the Insurance Council's mandate, the purpose of the code of conduct is to define and communicate standards of conduct for use by licensees in their practice of the business of insurance. The code of conduct is also used as guide by the Insurance Council in its deliberations on proper and usual practice in particular circumstances.

COUNCIL RULES: establish licence conditions and requirements for all licensees, in addition to the requirements set out in the provincial *Financial Institutions Act* and other legislation.

DISCIPLINARY ORDERS: in the interest of the public, punitive action against a licensee by the Insurance Council when a breach of conditions has been proven through due process.

ERRORS AND OMISSIONS INSURANCE: professional liability insurance providing coverage against claims related to mistakes in professional services.

INSURANCE AGENT: a person, other than an insurance company or an extraprovincial insurance corporation, who solicits, obtains or takes an application for insurance, or negotiates for or procures insurance, or signs or delivers a policy, or collects or receives a premium.

INSURANCE SALESPERSON: an individual who is employed by an insurance agent or by an insurer to solicit, obtain or take an application for general insurance, or to negotiate for or procure general insurance, or to collect or receive a premium for general insurance.

LICENSEE: individuals and agencies authorized to sell insurance in BC.

MANAGING GENERAL AGENT: an agency that is contracted to do business on behalf of insurers, with delegated authority to underwrite, bind cover, handle

claims and perform other administrative tasks within pre-approved parameters.

NOMINEE: a licensee nominated to exercise the rights and privileges of an insurance licence issued to an insurance agency or an insurance adjusting firm.

PARAMETRICS: a type of insurance providing coverage based on predetermined conditions rather than the value of the insured asset or loss.

PERSONAL INFORMATION PROTECTION ACT: regulates the collection, use and disclosure of personal information by private organizations such as independent school authorities in British Columbia.

PERSONAL INFORMATION PROTECTION AND ELECTRONIC DOCUMENTS ACT: a Canadian federal law that governs how private sector organizations collect, use and disclose personal information during a commercial business transaction.

PLAIN LANGUAGE: writing or speaking in a way that ensures the audience understands as quickly, easily and thoroughly as possible.

REBATING: monetary incentives insurance companies offer to sign onto a policy, limited by provincial legislation.

RISK HAZARDS: any circumstance that directly leads to a loss or increases the likelihood of a loss.

SECURITY AWARENESS TRAINING: education to equip employees and representatives with knowledge and skills to identify, understand and mitigate cyber threats.

SUB-BROKERING: an arrangement where one broker, when unable to effect coverage for a client (insured), arranges to place the client's coverage through another broker's market.

UNAUTHORIZED INSURER: an insurance company or extraprovincial insurance corporation that is not authorized to conduct insurance business in British Columbia.

UTMOST GOOD FAITH: a principle in contracts that legally obliges all parties to act honestly and to not mislead or omit critical information from one another.
